NGATI WHARE IWI VOICES

*Karanga mai ra Ngati Whare e!
Nei rā te mihi maioha ki a koutou i tēnei wā*

Te Runanga o Ngati Whare has commenced a Ngati Whare Iwi Revitalisation Strategy Project aimed to celebrate our values, stories, histories of Ngati Whare that will see action on the ground.

The purpose of the strategy is to provide a holistic and strengths based focus of Ngati Whare, through korero, interviews, images, in a form that is easy to understand, useful and relevant to and for Ngati Whare.

There are 2 main components to the project, korero tahi mo nga Uri o Wharepakau and publication of the stories shared for Ngati Whare.

The project will be conducted primarily through korero, wananga, hui, surveys, observations, informal and informal hui. It is anticipated a focus group be established to advise, review and contribute to this kaupapa.

The outcomes of the kaupapa will be to collate the korero, images and prepare a publication that is supported by Ngati Whare and used to develop templates, action plans that are useful and for Ngati Whare only.

The project can only be made possible with your invaluable contribution, time, knowledge, and support throughout the duration of this kaupapa.

Why are we doing this?

1. To hear Ngati Whare stories that will affect positive change in our future; and
2. Kotahitanga o Ngati Whare for intergenerational benefit

If you and whanau are interested in sharing korero or participating in a focus group, we'd love to hear from you. All information is treated confidentially and only shared as agreed by participants.

Mauri ora!
